Local Students Experience Denali Science School

Anderson 5th and 6th grade students participated in Denali Science School in Denali National Park on September 17-19. We got to team up with Cantwell School and Grace Academy in Palmer. Students had the opportunity to stay overnight for 2 nights at the park, while during the day they were busy monitoring permafrost depth, visiting the dog kennels and their new puppy, hiking the Mountain Vista trail, locating wolf collars in the woods, identifying the interconnectedness of species and their habitats, and many other interesting activities. By the end of the session, students worked in groups to create their own national parks. Some of the parks included zip lines as their mode of transportation, which sounded to me like a lot of fun! - Tricia Turley
